

June 17-2005

Dear Friends,

I am writing in regard to the Animal I.D. I would like to kindly express my feelings, concerning this matter. We, along with many other Plain People are much opposed to this animal I.D. If this would go in effect, would it perhaps lead to the same thing for man, as well as beast? That, we do not feel we could do at all.

Could we remember, and think of our beloved America as "the Land of the Free"? Our freedom is highly valued, but will we not gradually lose some of it, if there are more and more compulsory laws?

Thank you,

A concerned person in Pa.,

Nancy Swaray
